

Materials That Are UL Recognized

MFG has a number of proprietary UL-recognized materials used in applications including but not limited to HVAC and lamphouses. For more information see UL file number E54325 and E76349. A list of these with specific details can be found by searching "Molded Fiber Glass Companies" (note spelling) on [UL's online certifications directory](#).

The engineering staff at MFG Research is available to assist you with meeting regulatory standards that pertain to your product.

The screenshot shows the UL Product IQ search interface. The search results are displayed in a table with the following data:

Document Name	Company Name	Notes	UL CCN Description
QMFZ2.E54325	MOLDED FIBER GLASS COMPANIES INC		Plastics - Component
QMFZ8.E54325	MOLDED FIBER GLASS COMPANIES INC		Plastics Certified for Canada - Component
QMMY2.E357444	MOLDED FIBER GLASS COMPANIES INC		Fabricated Parts - Component

The interface also includes a 'REFINE RESULTS' sidebar on the left with filters for Keyword, UL Category Control Number, Company Name, and File Number. The top navigation bar includes 'SEARCH', 'MY SEARCHES', 'MY TAGS', and the UL logo. A sidebar on the right encourages users to quickly access confirmation letters with an upgraded Product IQ account.
