Cesar de la Rosa Promoted to Plant Manager of MFG Texas

Gainesville, Texas — November 30, 2017 — Molded Fiber Glass Companies is pleased to announce that Cesar de la Rosa has been promoted to plant manager of MFG Texas. He moves up from serving as the company’s engineering manager since 2013.

Cesar earned his Bachelor's degree in mechanical and administration engineering from Instituto Tecnologico y de Estudios Superiores de Monterrey (ITESM) and a Master of Engineering degree from the University of Ottawa.

Before joining MFG, Cesar worked for Mitsubishi Power Systems America, TPI Composites Inc. and GE Healthcare. He resides in Denton, TX with his wife Cecilia and children Isaac and Isabel.

MFG Texas is a supplier of high quality FRP parts and products to world class OEM's as well as smaller enterprises. The company specializes in low pressure molding technologies for medium and low volume production runs.

About MFG

Molded Fiber Glass Companies is a leader in the field of reinforced plastics and composites, serving diverse markets with a variety of composite material systems and processes. A family-owned business for more than 70 years, the company has 13 manufacturing entities in North America and is headquartered in Ashtabula, Ohio.
More information on the company can be found at www.moldedfiberglass.com.
